IMPORTANT:

→ The **Remote Invigilation Service** fee is higher because it covers several separate essential services such as remote invigilation, platform access, practice materials and qualification fees, all working together to provide a secure and fair exam experience.

→ All subjects that include a **speaking exam*** incur an additional fee. The family is responsible for sourcing and providing a qualified examiner. BGA holds no obligation to arrange or facilitate this requirement.

→ If extra costs are required for special accommodation or assessment for external subjects (subjects not offered by BGA), these costs fall to the candidate.

→ Kindly note that BGA does not conduct any exam/subject with practical or laboratory components as we do not have the required facilities to do so.
